PERSONAL PROFILE

Detail-oriented graduate with a Diploma in Information and Communication Technology in Business Analysis and a strong interest in technology and solving business problems. Experienced in applying my knowledge through academic and practical projects, with the ability to learn, adapt and work both independently and as part of a team. Seeking an opportunity to gain industry experience, contribute to a professional team and continue developing my skills.

CORE COMPETENCIES

- Communication
- Problem-Solving
- Initiative
- Teamwork
- Attention to Detail
- Time Management
- Analytical Thinking
- Adaptability
- Willingness to Learn

PRACTICAL EXPERIENCE

CodeTribe Bootcamp Participant May 2026 – June 2026
mLab Southern Africa

- Built responsive web applications using HTML, CSS, JavaScript, React and TypeScript
- Applied semantic HTML, Flexbox, Grid, DOM manipulation and form validation
- Used Git and GitHub for version control and portfolio management
- Deployed projects using GitHub Pages and Vercel
- Joined remote stand-ups, Q&A sessions, collaboration and code reviews

EDUCATION

Diploma in Information and Communication Technology in Business Analysis
Durban University of Technology Jan 2022-Dec 2024

National Senior Certificate (Grade 12) 2021
Gobinamba Senior Secondary School

PROJECTS

HotelApp: Hotel Booking Web Application
React · TypeScript · Node.js · Express · PostgreSQL · Neon · CSS modules · Vercel
https://hotel-app-m1wm.vercel.app | ntombizodwantlahla53-code/HotelApp

- Customers browse hotels, book rooms and pay online
- Admins manage hotels, rooms, bookings and payments
- Secure login with Google Sign-In and Admin / Customer roles

Weather App
React · TypeScript · Redux · Visual Crossing Weather API · Vercel
https://weather-tqyi.vercel.app/
- Developed a responsive weather application using React and TypeScript.
- Integrated the Visual Crossing Weather API to display real-time weather information.
- Implemented Redux Toolkit for efficient state management and data handling.
- Deployed the application on Vercel and managed source code using Git and GitHub.
